Chance to Shine Programme - Year 2 Cricket

Year Two children have been learning how to play cricket on Wednesday mornings with cricket coach James Kemp from North Devon Club & Community.

This week they have been learning how to control the ball with the bat and how to balance the ball and different objects such as beanbags. The children have also learnt about agility and how to move quickly between the cones whilst balancing a beanbag on a cricket bat.

Futures Farm

Seahorses and Jellyfish classes enjoyed their visit to Futures Farm this week. The children were very busy for the whole day caring for the animals. Some of their activities included collecting the chickens eggs and testing them in water to see if they were fresh, herding the ducks into their house and placing food and hay in different places around the goat enclosure to make them hunt for it. The children marched through the thick, squelchy mud to visit the pigs and were able to bottle feed a lamb. The children thoroughly enjoyed the day.

Poetry work

On Thursday the Year 2 children had a visit from the Year 5 children from the Junior School. They came to read some of the poetry work they had been doing and to share their favourite books. It was a lovely opportunity to share learning.

With kind regards

Claire Grant
