Dear Parents and Carers,

Thank you for your support throughout these unprecedented times. We are really enjoying having the children back and it has been a busy and productive return to school.

Car park

Please can you ensure that you walk on the paths and do not walk across the car park as we are keen to avoid any accidents.

Thank you

Lateness

It is crucial that your child arrives at school in time for the start of the day. Even 10 or 15 minutes late will mean that they miss out on their phonics sessions. Please be mindful of this and we thank you in anticipation of your support.

Science

This week Swans have been looking at where different plants grow. The children have planted some herbs and some sunflowers. Then created our own cardboard gardens.

Mathematics

This week Swans have been working on addition number sentences. The children used resources to solve each addition and then used the greater than/less than/equal to symbol to compare it with a different total.
